

ADARSH PATIL

Belgaum, Karnataka 591008

+91 9036258583 adarshpatil02@gmail.com [linkedin](#) [github](#)

Profile

Information Science and Engineering undergraduate with expertise in Java, MERN stack, Spring Boot, and MySQL. Skilled in backend development using Spring Boot and Node.js with Express.js, efficiently designing and implementing scalable solutions. Experienced in cross-functional team collaboration to deliver high-quality software products. Proficient in Git, GitHub, and Postman for version control, API testing, and deployment.

Education

Gogte Institute of Technology, Belgaum

Bachelor Information Science and Engineering

Dec 2022 – Present

CGPA - 8.06

Konnur College of Science

Pre-University in PCM and CS

Jun 2020 – Apr 2022

Percentage - 94.3

Projects

MERN E-Commerce App | *React, Node.js, MongoDB* | [GitHub](#)

October 2024

- Developed a MERN e-commerce platform using Redux for efficient global state management and seamless performance.
- Integrated secure payment gateway to ensure smooth online transactions, providing a seamless experience for customers.
- Developed an admin dashboard with features like user management, order tracking, and product management.
- Implemented features like user authentication, product filtering, and cart management to improve site functionality.

E-Learning Platform | *Angular, Spring Boot, MySQL* | [GitHub](#)

December 2024

- Designed and implemented RESTful APIs for user authentication, course enrollment, and seamless user management.
- Integrated MySQL database for storing course and user-related data, ensuring efficient data retrieval and storage.
- Implemented a course booking system with features like booking confirmation, cancellations, and notifications.
- Developed an admin panel for managing courses, users, and monitoring real-time booking status updates efficiently.

Hotel Booking App | *React, Spring Boot, MySQL* | [GitHub](#)

January 2025

- Integrated Spring Boot for backend, MySQL for data storage, and JWT for secure user authentication and authorization.
- Developed an admin dashboard for managing room availability, booking status, customer details, and adding new rooms.
- Designed interactive UI using React, API integration, and better design for easy room booking and check-in processes.

Experience

Infosys Springboard

October 2024 – December 2024

Java Web Developer

Remote, India

- Led a team of developers in designing and implementing the interactive frontend and backend architecture for an e-learning platform using React, MySQL, Java Spring Boot, and RESTful APIs.
- Facilitated code reviews and managed sprint planning, contributing to the timely delivery of features and improvements for the platform, ensuring high-quality code and optimized performance.
- Coordinated with cross-functional teams to gather requirements, ensuring alignment of technical solutions with business goals, optimizing project workflows, improving communication, and enhancing system scalability and performance.
- Implemented efficient database schemas and optimized queries, improving data retrieval speed and ensuring seamless integration between frontend and backend systems.

Technical Skills

Languages: Java, C, HTML/CSS, JavaScript, SQL

Technologies/Frameworks: React, Spring Boot, Node.js, Express.js

Developer Tools: GitHub, Postman

Database: MongoDB, MySQL

Hobbies

Photography Traveling Movies Music
